#### 1.0 Introduction

Crosslinx Transit Solutions (CTS) is a consortium comprised of ACS-Dragados, Aecon, EllisDon and SNC-Lavalin. Metrolinx and Infrastructure Ontario selected CTS to deliver the Eglinton Crosstown Light Rail Transit (ECLRT) Project.

CTS is required to provide a quarterly report on its Community Benefits initiatives, as laid out in our Community Benefits and Liaison Plan. This is our second report for 2019. In this report you will find a snapshot of our work during the months of April, May, and June 2019. We look forward to continuing to engage with the residents and businesses on Eglinton Avenue, while celebrating the unique and diverse nature of these communities.

#### 1.1 Relevant Definitions

To ensure clarity, we have defined the terms used in this report.

#### Historically disadvantaged communities

Groups that have been historically excluded or marginalized from the processes and decisions that affect them. This group includes low-income (people living within NIAs), racialized and immigrant populations, as well as military veterans. This definition is taken directly from our Project Agreement with Metrolinx.

#### Neighbourhood Improvement Areas (NIAs)

In March 2014, the City of Toronto, through the Toronto Strong Neighbourhoods Strategy 2020, identified 31 of its 140 neighbourhoods as falling below the Neighbourhood Equity Score and requiring special attention; these neighbourhoods have been termed Neighbourhood Improvement Areas.

#### **Project Corridor**

The Project Corridor is the area along and around Eglinton Avenue, between Weston Road in the west and Kennedy Road in the east. Proximity to the project corridor is used to determine whether residents hired onto the project are local, as well as to determine whether businesses are local. 2 kilometres is used to determine who is considered local.

#### Youth facing barriers to employment

Youth facing barriers to employment is a term that acknowledges that some youth are facing barriers that may include, but are not limited to: poverty, education, training and child care.

#### **Equity seeking groups**

Equity seeking groups include women, individuals who are members of visible minorities (a term that has fallen out of use in favour of the term 'racialized groups'), Aboriginal Peoples, persons with disabilities, and individuals of non-heterosexual orientation or non-cisgender identity.

#### Social enterprise

A social enterprise is an organization that applies commercial strategies to maximize improvements in human and environmental well-being – this includes maximizing stakeholder value over shareholder value. Buy Social Canada and the United Way's Toronto Enterprise Fund determine who is a social enterprise, and who is included in the tracked spend.

#### 2.0 Background

#### 2.1 Objectives

The objectives of the Community Benefits and Liaison Plan are to:

- Provide community liaison to the communities impacted by the design and construction of the ECLRT Project.
- Plan, organize and host events to enhance community awareness of employment opportunities, and opportunities for the provision of goods and services.
- Develop and retain meaningful engagement with stakeholders.

#### 2.2 CTS Roles and Responsibilities

The following table provides an outline of the roles and responsibilities of CTS' Community Benefits team members.

Table 1: CTS Community Benefits team roles and responsibilities.

Name	Role	Responsibilities		
CTS Consti	CTS Constructors			
Kristin Jenkins	Communications & Public Engagement Director	Reports to the Project Director and President. Oversees strategic implementation of Community Benefits and Liaison Plan and ensures integration across CTS communications as appropriate. Leads all CTS communications, public engagement and issues management. Has a primary interface with Metrolinx's Communications and Community Relations Director. Leads and supports issues management, crisis communications and provides media relations support. Media-trained.		
Luba Berezina	Community Investments and Programs Lead	Reports to the Communications & Public Engagement Director. Plans and implements Community Benefits strategy and initiatives, stakeholder relations and issues management as required. Works collaboratively with CTS internal teams to deliver initiatives associated with CTS' Community Benefits and Liaison Plan. Primary		

Patricia Pytel	Corporate Communications Manager	interface with Metrolinx's Community Benefits Specialist, as well as other key stakeholders. Leads CTS Community Benefits Working Group (CBWG) member participation and action items. Attends all relevant coordination, committee and community meetings.  Reports to the Communications & Public Engagement Director. Leads the development and implementation of the Construction Communications Plan. Supports the integration of Community Benefits initiatives across CTS communications as appropriate. Supports the promotion of Community Benefits initiatives and provides issues management and media relations support. Media-trained.
Denisa Leiba	People & Culture Director	Reports to the Project Director and President. Liaises with all staffing (unionized and non-union) divisions and project management teams to support the integration of Community Benefits initiatives across the organization. Supports engagement with local workforce agencies and CTS' Candidate Referral Pipeline, helps plan training and skill development initiatives, and attends events as appropriate. Media-oriented.
David Galvin	Labour Relations Manager	Reports to the People & Culture Director. Acts as internal labour relations advisor to CTS and works directly with construction leaders, parent companies and unions. Supports apprenticeship initiatives in the area of labour relations.
Luciana Lickfeld	People & Culture Coordinator	Reports to the People & Culture Director. Supports Community Benefits initiatives in employment, training, and skill development. Coordinates the provision of feedback to local workforce agencies on CTS' Candidate Referral Pipeline. Supports engagement with local workforce agencies and CTS' Candidate Referral Pipeline, helps plan training and skill development initiatives, and attends events.

# 3.0 Apprenticeship

Reporting for the Apprenticeship Plan is done annually through the CTS Apprenticeship Plan Annual Report.

#### 4.0 Employment, Training and Workforce Development

We are committed to making the pathway to Professional, Administrative and Technical (PAT) roles in the construction industry more accessible to people facing barriers to employment.

As CTS is an equal opportunity and inclusive employer, we are prepared to build relationships with all local workforce agencies who work with individuals facing barriers to employment.

Hires to date	153
Career Start Opportunities to date	22
Outreach and Meetings (this quarter)	13

#### 4.1 Policy

We use a system of targeted hiring approaches to employ people from historically disadvantaged communities, as well as residents from along the Project Corridor. It is called the CTS Candidate Referral Pipeline ("Pipeline"). The Pipeline is composed of strategies to get resumes sent to CTS, as well as efforts CTS is making to disseminate information about employment opportunities to these communities.

Our Community Benefits and Liaison Plan identifies three ways (self-directed, agency referral and agency recommendation) that local workforce agencies can work with their clients to access PAT roles at CTS. To help feed the Pipeline, we typically give these agencies notice of jobs that are about to be posted so they can better prepare their clients to compete against the rest of the labour market.

#### 4.2 Practice

We are committed to being active in our outreach and transparent in our intent to hire from the communities outlined in the policy above.

To be open and accessible, the CTS Community Benefits team sends out job postings to its Local Workforce Development and Recruitment Network (see Table 2) on a regular basis and encourages questions from the network about those jobs. The full list of local workforce agencies is included as Appendix 1.

Table 2: Workforce Development and Local Recruitment Network

Agency Network	CTS Liaison + Candidate Referral Pipeline Conduit	Number of agencies (centres) in network
Consortium of Agencies Serving Internationally- Trained Persons (CASIP)	<ul><li>ACCES Employment</li><li>Humber College</li></ul>	8
Don Valley Employment Solutions (DVES)	Labour Education Centre	5
Lawrence Heights Inter- Organizational Network (LHION) – Employment and Training Working Group	City of Toronto Employment & Social Services	11

Professional Access Into Employment (PAIE) Program	Toronto and Region Conservation     Authority	1
E-Team	East Scarborough Storefront	13
Military Employment Transition Program	Canada Company	1
Toronto West Partnership (TWP)	St Stephen's House	15
Toronto Central Service Delivery Network (TCSDN)	Career Foundation	12

<sup>\*</sup>Note: Some agencies hold seats in multiple networks.

#### 4.3 Performance

#### **ACCES Employment Speed mentoring marathon**

On May 29th<sup>th</sup>, CTSC team, comprised of engineers and HR specialists, met with 34 internationally educated professionals in engineering and HR at a speed mentoring marathon hosted by ACCES Employment at Toronto Marriot Downtown Eaton Center hotel. We were able to share our knowledge about the ever-changing Canadian labour market and gave valuable advice how to better navigate it. The event was a great success and ACCES Employment suggested to organise a similar speed mentoring marathon with other employment agencies serving Internationally Trained Professionals.

We always welcome the opportunity to speak to the front-line staff and clients of local workforce development agencies about employment opportunities at CTSC.

#### Train the Job Developer Session

We continue to deliver "Train the Job Developer" sessions. This quarter we worked closely with Employment Ontario Local Service Delivery Networks across the city to help them better understand how to apply for CTSC jobs and the requirements to prepare a successful job application. During these sessions we were able to answer questions about our programs, about our challenges and opportunities. 5 presentations were given to these networks, including Toronto West Partnership (TWP) and Toronto Central Employment Service Delivery Network (TCESDN). The networks represent 58 local workforce development agencies.

Since 2015 we have been working with a growing number of employment agencies that focus on providing underemployed or unemployed jobseekers with lucrative employment opportunities.

This spring we participated in two jobs fairs with over 200 participants each: Don Valley West Youth Career and Job Fair, New Circle Employment Fair. The CTS Community Benefits team talked to jobseekers from various walks of life: youth, newcomers and long-term unemployed individuals.

#### 5.0 Social Procurement and Support of Local Business

We are committed to supporting and building the capacity of small- and medium-sized businesses, disadvantaged business enterprises (those severely impacted by our construction), and social enterprises. Of interest are those businesses located along the Eglinton Corridor and adjacent to our construction sites, and social enterprises that create employment and training opportunities for historically disadvantaged and equity seeking groups who have multiple and systemic barriers to employment.

A local business is defined as a business that is located within two kilometres of the ECLRT Project Corridor. Ongoing support for the Project by local suppliers and contractors is important to CTS, and we encourage staff and subcontractors to purchase from local sources for goods and services wherever it is practical, economically reasonable and technically sound.

Social Procurement Spend to March 31, 2019	<b>\$ 562,146.08</b> (compared to \$542,195.98 reported for Q1 2019)
Support of Local Businesses Spend to March 31, 2019	\$ 6,250,014.49 (compared to \$5.9 million reported for Q1 2019)

#### **5.1** Policy

The CTS Community Benefits team maintains a local business and social enterprise list, available as a resource to all CTS staff. The team promotes the use of businesses on this list wherever possible. The Community Investments and Programs Lead acts as the internal champion for the social procurement initiative at CTS.

#### 5.2 Practice

CTS continues to strengthen its partnership with Buy Social Canada as we believe that effective Social Procurement is the result of relationships that are intentionally built between purchasers and suppliers. Buy Social Canada helps us identify social enterprises that can provide products or services to the ECLRT Project.

To ensure that staff remain aware of our commitment to investing in businesses along the Project Corridor, CTS Procurement team prompts staff when making purchases to consider whether their purchase can be made on Eglinton Avenue (locally) or through a social enterprise.

#### **5.3** Performance

#### **TEF Employment Social Enterprise Sector Conference**

On March 29, 2019 we attended Employment Social Sector Conference. At this event we were able to meet new and familiar social enterprises in a low key, low pressure environment.

The goal of the conference was to build the capacity of social enterprises through networking, workshops, coaching sessions and the sharing of best practices from across the region. We were honoured to participate in the conference, receive updates on how social enterprises work, and learn more how they can fit into our supply chain.

#### Window washing and street cleaning

To support local businesses, we've continued our partnership with Building UP, a social enterprise focused on creating employment pathways for individuals who are distant from the labour market. Together we deliver free window washing program to businesses located within 200 m radius of the station sites along Eglinton Avenue. The services are offered every three weeks and take place from June until November. This quarter we've extending the program to offer street maintenance around the at-grade stations. The program allows us not only to keep the streets clean but also to support social enterprises to increase their capacity in serving people facing barriers to employment. During the program participants gain valuable skills that allow them to secure employment in construction.

#### 6.0 Community Improvements

We are committed to initiatives that develop the capacity of community members, demonstrate environmental stewardship, and promote social and economic inclusion.

CTS Builds Communities events this quarter 4

#### 6.1 Policy

We have a commitment to improve as we build and leave communities better off than they were before we started building. Our program, CTS Builds Communities, is based on the simple notion of caring, and aims to demonstrate corporate social responsibility by being proactive and visible in the communities in which we work.

#### **6.2 Practice**

CTS will continue to develop and put in place policies and procedures that weave social, economic and environmental matters into business operations and core strategies. The principles of our community investment strategy are as follows: work in partnership with local communities; develop connections between our employees and residents and; environmental protection and sustainability.

This third element of environmental protection and sustainability is very important to us and encompasses the entire project – from design to construction to maintenance. We are building the Eglinton Crosstown LRT system with sustainability in mind at every stage, and therefore it is only fitting that we emphasize this in our CTS Builds Communities program.

#### 6.3 Performance

#### Skills Ontario – Regional Young Women's Event

For the third year, we are participating in Skills Ontario Young Women's Conference, a variety of engaging and hands on events and programs that provide skills development and mentorship opportunities to young women in grades 7 to 12. On May 6-7 CTS staff spent two days educating young women from all over Ontario about our Project and talking about various opportunities in STEM.

#### Community Clean-Up at Oriole Park and Spring "Clothing Drive"

In April we organized our annual spring clean up event. CTS staff had an opportunity to participate in the 20 minutes "Community Cleanup at Oriole park and/or donate gently used clothes to a local charity "Dress for Success Toronto", whose mission is empowering women to achieve economic independence by providing a network of support, professional attire, and the development tools to help women thrive in work and in life.

#### **Doors Open Toronto**

On Saturday, May 25<sup>th</sup> Crosslinx participated in the city's annual Doors Open event, welcoming over 3100 people into the Eglinton maintenance and Storage Facility. We saw all kinds of people come through our doors that day-community members, transit enthusiasts and families-all of whom got an inside look at what we've been doing and what's come in 2021. By offering the public the opportunity to visit our facility and engage with subject matter experts, we build those relationships that are so important to our success.
